PERSONAL PROJECTS

KNOWLEDGE BASED RECOMMENDATION SYSTEM

- A recommendation engine that recommends the individual based on the emotion detected in their messages. The recommendation can be a movie, music, ontology, or a product on e-commerce sites.

STUDENT MANAGEMENT SYSTEM

- Developed a student management system using django where we can add,update,delete records of students.
- <https://github.com/kambamshreya/Student-Management-System>

VCE EVENTS

- Developed an android application for handling multiple college events. It will give alerts to students about latest happenings and upcoming events in their college in real-time with the help of push notifications.
- <https://github.com/kambamshreya/Event-Management-Application>
